MEMORANDUM FOR THE RECORD

SUBJECT: Telecon with Mr. Denver Dickerson, Staff Director,
Joint Committee on Printing

1. Called Denver this date to ask whether the JCP would approve CIA's procurement of a third module for P&PD's Atex system. Two modules had previously been procured. Denver said that he had no problems with our procurement action, and that he did not require or want any formal paper work before or after the fact.

2. Denver volunteered that as far as he was concerned CIA had traditionally been exempt from the provisions of Title 44. His staff had researched this matter previously at the request of [] OLC, and, although they could not find paper to support this position, they were certain that waivers had been granted verbally by a previous staff director. He further stated that he thought that it would be "inappropriate" to bring this question up in any formal way, and that if he was questioned on his position he felt confident that he could defend it.
